

# FARM BASED DAY CARE SERVICES FOR PEOPLE WITH DEMENTIA - A RESEARCH PROJECT

## DEMENSOMSORG PÅ GÅRD

ANNE STRØM PRESTVIK, BRIT LOGSTEIN OG GRETE PATIL

# Background

- Dementia plan 2015/2020

- Parliamentary White Paper 31 (2014 - 2015)  
The Farm as a resource - The market as a goal –  
Growth and entrepreneurship in agriculture based industry

- Action plan for care farming 2013-2017

## **Farm-based day care services for people with dementia: quality development through interdisciplinary collaboration**

Norges forskningsråd, Bionær programmet

27.392.000 NOK for 2016-2019

4 forskningsinstitusjoner, 17 forskere, 1 rådgivende gruppe og 2 internasjonale partnere

# PROSJEKTGRUPPEN

**NMBU:** Grete Patil, Ingeborg Pedersen, Lina Ellingsen-Dalskau (post doc) og Bjørnar F. Garshol (PhD-student)

**Aldring og helse;** Siren Eriksen, Tanja Ibsen (PhD-student), Liv Taranrød (PhD-student) og Øyvind Kirkevold

**NIBIO:** Anne Prestvik, Ivar Pettersen, Birger Vennesland og Hilde Knutsen

**Ruralis:** Brit Logstein, Marit Haugen, Jostein Vik, Jostein Brobakk og Maja Farstad

# Målsetninger

To provide knowledge for innovative quality-based development of farm based day care services (FDC) for people with dementia

- Investigate the experience and benefits of FDC for people with dementia and their family caregivers
- Understand the key unique elements on the farm suitable for providing high quality day care services
- Identify and understand how to enable a successful interaction between farmers offering FDC and the municipality
